

Technology Enhanced Items

Drag & Drop

NEW! Introducing Stride Academy technology-enhanced items to prepare students for the shift to more rigorous online assessments, including PARCC, Smarter Balanced and ACT Aspire.

Drag images to match correct answers, move information into the correct sequence, or locate evidence for a response and drag it into place.

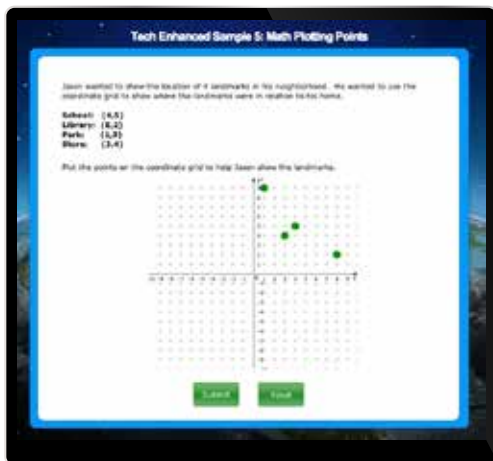

Evidence-Based Selected Response (Part A/Part B)

Part A of the item sets the stage for Part B, where student is asked to prove their answer by citing textual evidence.

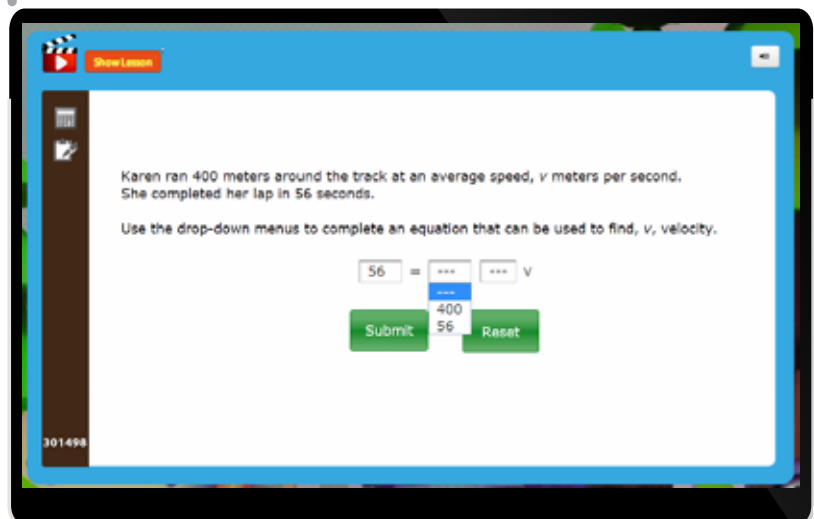

Plotting Points

Plot points on a line, coordinate grid or graph.

Drop-down Menus

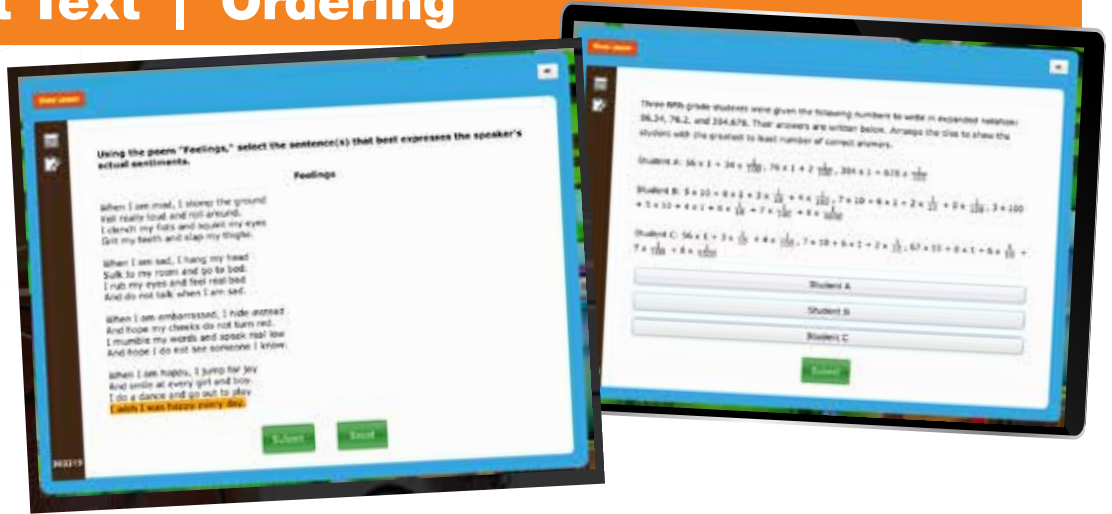

Student will use drop-down menus to select the correct answer.

Highlight Text | Ordering

Students searches and highlights text for the correct answer.

Student puts objects (short text and/or graphics) into order to create the correct overall answer.

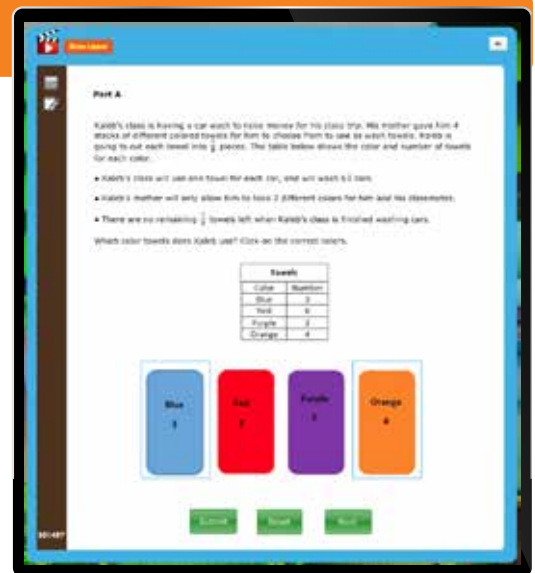

Written Response

Student enters an alphanumeric response in an open box to define the correct answer.

Multiple Selected Response

Student can select more than one correct answer or image.

These innovative new item types require specialized interactions to assist students in gaining a deeper understanding of important content.
